Pre-assembly preparation, fittings and parts checklist

Please ensure instructions are read in full before attempting to assemble this product.

Necessary tools

Please check the box contents thoroughly before assembling this product. If components are missing, please contact the retailer from whom you bought this product. This product takes approximately 30 minutes to assemble for 2 persons. The fittings pack contains small items which should be kept away from young children.

a) Screws for tilt bar hinges x8

b) Screws for desktop hinges x8

c) Allen key head bolts for desk frame x6

d) Hinges for tilt bar

Desktop hinges

e) Allen key provide - you will need a screw driver

f) A-shaped leg

i) Support beams x3 (including x1 beam with a smooth chamfer)

j) Desktop x1

(recess for cables)

g) Central beam x1

h) Tilting bar x1

Step-by-step assembly instructions

1 Lift up an A-shaped leg (f) and insert support beams (i) into slots of legs (f) - with the chamfered beam into the marked slot. Screw bolts to hold in place (DO NOT TIGHTEN)

Chamfered beam slot

2 Lift second A-shaped leg into place and insert support beams by screwing in bolts.

3 Slide the central beam (g) into place and secure with a bolt into each A-shaped leg.

4 Now tighten up all bolts including the support beam's, ensuring that your desk frame is solid.

5 Screw desktop hinges onto A-shaped legs.

6 Turn the A Desk frame upside down and align the desktop hinges with the pilot holes (on rear side of desktop), located towards the straight edge.

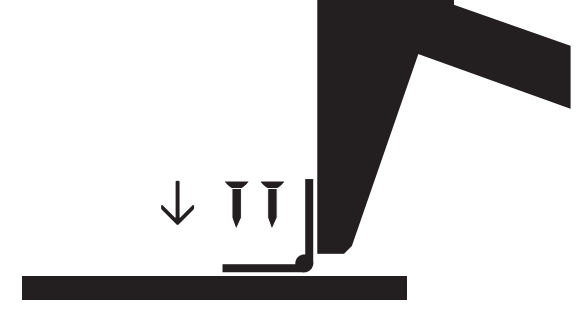

Step-by-step assembly instructions

7 Gently rotate the A Desk frame backwards by 90 degrees to allow you to screw the hinges into the desktop.

8 Align the screw holes with the pilot holes on the desktop and attach nice and tightly.

9 Screw hinges onto tiling bar. Then position the tilt bar on the desktop, align the pilot holes and screw up tightly.

10 You now have a completed A Desk... albeit upside down!

11 Rotate and lift the A Desk, taking care to hold together the desktop and A-frame (2 person job)... now get to work.

Care

Plywood furniture

Wood displays different grain patterns depending on which way it is cut. Plywood is made from layered sheets and therefore the edges can vary in colour and grain pattern. Plywood can have small holes within the layers of birch wood due to knots falling out. Some knots remain and are coloured black. However, all edges are sealed to stop moisture getting in.

All timber surfaces will change colour and mellow over time. New furniture will initially vary in shade from items that have been previously purchased.

Laminate can fade over time.
Not for outdoor use.

How to care for your furniture

Furniture with a laminate should be dusted with a slightly-damp, soft cloth and wiped dry to remove fingerprints and dirt.

Spray polishes are best avoided as they contain silicones which may spoil the furniture's surface by building up over time.

Make sure all surfaces are protected from heat and excessive liquid. Wipe spills dry immediately.

Our furniture will endure most temperatures in the home but it is best to avoid placing furniture next to heat sources such as radiators or fires. Be particularly careful with plywood as the lack of humidity caused by central heating can cause damage such as warping.

Note

This information is intended only as a general guide. For severe scratches or stains, and anything else not listed, it is recommended that you contact an experienced trades person.

Safety instructions

General warnings

Never drag furniture when moving it, always lift it. Periodically check all fixings to ensure none have come loose and re-tighten where necessary. Please take care when handling or moving the furniture as careless handling may cause damage or injury.

Furniture can be dangerous if incorrectly installed. Assembly should be carried out by a competent person. No liability will be accepted for damage or injury caused by incorrectly installed or assembled furniture.

Important safety note

Do not: Sit on the desk
Do not: Climb or stand on the desk

Please keep these instructions for future reference.
